

COVID-19 Restart Plan

**BEST PRACTICES:
MOTOCROSS & OFF-ROAD**

To address COVID-19 challenges at motorsports events and instill confidence in racers, fans, staff and authorities, experienced members of the motorsports industry pooled their collective knowledge to develop best practices to allow motocross racetracks of all sizes, nationwide, to resume limited operations in accordance with current health and safety standards for social distancing. Protocols were based on current information from the CDC and WHO, and in collaboration with a variety of American racing organizations across many states. Based on the government’s stated phased-in approach to the return to business, the best practices developed by the Safe-to-Race Task Force are designed specifically to comply the phased-in approach.

To accomplish this goal, social distancing guidelines will be enforced, staff will be tested for elevated temperatures, PPE will be required in accordance with CDC guidelines, fixed seating areas will be restricted and/or eliminated, food and merchandise sales will be limited, and health and safety messaging will be prominent throughout the facility.

With confirmation of local EMS and Emergency Room capabilities to transport and treat riders if needed, Organizer is ready to host events in accordance with local, state and federal regulations using the following best practices. We look forward to working with our local health officials to safely return to the racetrack.
